LEAD TECH ®

LT760
small character inkjet printer

Specifically designed to meet basic coding and production applications across a wide range of industries.Designed to meet the demand for high-quality and reliable printing.It provides an extremely user-friendly interface and is noted for improving production efficiency and offering cost savings.

The coding machine suitable for manufacturing-type companies.The choice for production-oriented enterprises.

Easy to use

Easy-to-use system operation.Short training time.
One-click Auto Switch,without complicate manual operation.
Automatic adjustments to the viscosity,ensuring the stability of machine.

Excellent stability

Can still print after long prolonged shutdown.
The automatic cleaning function,without manual operation,ensures the normal working status of equipment.
Integrated ink-control system to meet a variety of work environments and exquisite font print.

Unique design

IP65 dust-proof.
Ultra-quiet operation that reduces noise pollution in the workplace.
External power source,effectively decreasing the temperature in the cabinet.

Intelligent ink circuit system

Efficient use of consumables to achieve cost savings.
Intelligent ink cartridge and solvent system,which has default alarm if inserting cartridges wrongly.
High-performance inks are designed for current applications and production environment.

Economic and environmental consumables

Insert and run,convenient and quick,reducing the pollution in the workplace.
Excellent print performance,satisfying the demand of different products.
Environmental,quick-drying,high adhesion.The life test of the consumables and the hardware of equipment shows that it effectively prevents the hardware from premature degradation.

The innovation of nozzle

30^0 slanted printhead,more adapting to the production line.
Plastic injection,solving the risk of ink bleed.
Integrated design,simplifying replacement of parts and making it recover rapidly from downtime.

Printing Performance
1-4 lines (7X5matrix)
1-5 lines (5X5matrix)
Maximum speed=450m/min@5X5

Font matrix
5X5,7X5,9x7,12X9,16X11,19X14,
24X17,32X22

Character Height
1-12mm,depending on the font

Printing Distance
2mm to 30 mm
Best : 10mm

Inkjet character
English, Arabic numbers, bar code,
serial number, automatic date, use-
defined characters, special logo

Extra memory
SD Card

Memory space
68 messages +50 Logo

Industrial protection
Ip65

Nozzle
60 microns

Umbilical length
Super soft, length 3m

Printing direction
360º all-round printing

Cartridge volume
Ink (500ml)
Make-up (750ml)

Temperature/Humidity range
0-45℃
0-95% relative humidity,
non-condensing

Power
AC100-240V 50/60Hz
60VA

Net weight
17KG

Dimension
410X330X445mm
